To coordinate and facilitate riverbank school planting on the banks of the Waikato and Waipa Rivers

The project primarily involves co-ordinating and facilitating riverbank school planting on the banks of the Waikato and Waipa Rivers and necessary ongoing maintenance.

Plants will be eco sourced and naturally occurring in, and suitable for, the subject site. Sites will be identified and prepared for planting by contractors and Waikato District Council staff and later planted by school children under the direction and supervision of contractors, teachers and Waikato District Council staff.

This project is funded by the Waikato River Authority (WRA 12-036)
