

DEAR SIR

I HAVE ~~been~~ forgotten what I submitted but
may have been what was written below

On March ~~at~~ 26th 1958 I was carting sand from the
Roose hopper on the landing below the TRAFFIC BRIDGE
AT 2pm and dropping at the council yard in Clarence
STREET ~~at~~ as I LEFT the river level was up to the
Landing. RETURNING 20 minutes later the hopper was
gone and the river was up to the concrete wall at
the rear of the landing

Was the WRC in any action in place should this
occur again as a result of river rise houses in
ANN STREET were ~~totally~~ flooded
